- 5 Member & Alumni Profiles
- 6 Building Corp. Update
- 7 Speaker Series & Career Network
- 8 Upcoming Events Stay in Touch

### H. Wilson (Unky) Sundt '54

Known as “Unky” to close family and friends, H. Wilson Sundt graduated from the University of Arizona in 1954 with a degree in Business Management. A prominent figure in the Tucson community, Unky and his brother soon took over their family business and helped create it into a booming enterprise as Tucson-based Sundt Construction. To date, Sundt Construction has completed projects in 21 states and 11 countries, including projects such as the U.S. Embassy in Moscow and the Apollo 11 launch pad in Florida. His accomplishments were recognized by Engineering-News Record, an industry magazine, where he was featured on the cover in both 1977 and 1990.

... continued on page 3.

### Craig Barker '82

Following the footsteps of his father Emery '57 and older brother Mark '80, Craig joined Upsilon Alpha in the fall of 1978. During his college years he was a member of Primus, Sophos, Chain Gang and Blue Key as well as the President of Bobcats Senior Honorary. Craig served as the editor of the Campanilla for 3 years and the chapter won the “Coon Plaque” at the 1981 Fiji Academy for the best graduate newsletter in the country. He also served on the Cabinet as Corresponding Secretary as a Junior and Recruitment Chairman his Senior year.

... continued on page 3.

### Jeff Mongan '83

After receiving a bachelor's degree in Business Administration from UofA in 1983, Jeff kickstarted a 37-year career in resort and luxury hotel development as the Senior Vice President and Partner with The Athens Group. Some notable properties developed by Jeff include Montage Deer Valley, Montage Laguna Beach, Ritz-Carlton Half Moon Bay, Ritz-Carlton Bachelor Gulch and Four Seasons Hualalai Resort on the Big Island of Hawaii. Early in his career Mongan was involved in development of the Ventana Canyon community and Loews Ventana Canyon Resort in Tucson as well as the La Reserve community in Oro Valley. Mongan is a long time member of the Urban Land Institute and

*Deron Webb '89*

Dear Brothers,

This past year has been far from what any of us expected, but the brothers of the Upsilon Alpha Chapter have continued to make advancements both individually and as a chapter as a whole. As a chapter, we currently

have 115 members after adding 20 standout gentlemen in the Eta class. These 20 fine young men have shown every indication of being future leaders, both in our chapter and in their desired career fields. In regards to academic success, the Upsilon Alpha chapter has a 3.71 GPA, the second highest GPA among IFC fraternities separated by less than .06 points from that highly-desired top spot. This past fall semester has brought along new challenges and demands that have tested our chapter's values like never before. I'm blessed to say that these challenging times have only strengthened the sense of community within this chapter, as brothers have continued to safely interact and communicate with one another.

The Upsilon Alpha Chapter has continued to involve our members in brotherhood events with the continuation of our Fiji Basketball League that allows brothers to interact and compete in a safe, comfortable environment. On the professional front, our chapter has continued to host company recruiters and representatives looking for well-rounded men interested in Summer internships and employment. Our brothers have continued working with career advisor, Pete Corrigan, to find companies best suited to meet their professional development needs. Taking advantage of this time to improve academically and professionally, will set the Upsilon Alpha chapter up for new levels of growth regardless of any restrictions brought on by COVID-19. I speak on behalf of the Upsilon Alpha Chapter in saying how excited we are to be a part of the amazing growth and progression that is to come for this chapter moving forward. We want to thank our graduate brothers for their continued support, and are constantly reminded of how lucky we are to have such outstanding alumni that care about our chapter. It is through your generosity and involvement that our chapter is able to reach such great heights. Perge!

Cole Houck '22

# Letter from the Board of Advisors

I hope that you, your family and friends are staying healthy and in good spirits. Our daily lives have sure seen significant changes in the past six months due to the worldwide pandemic. This year has been especially challenging for Upsilon Alpha, but I am happy to share that

overall, our Chapter remains strong.

The impact of COVID-19 on college campuses, particularly campus life, has been significant. It has resulted in many changes to how our undergraduate chapter operates. We can and should be proud as to how well and how quickly our brothers rose to the challenge and found new ways to recruit new members, keep connected and even conduct chapter business. They are following all the new protocols established to navigate through these uncharted waters and still have managed to enjoy a successful fraternity experience. A good committee system is in place to oversee the various aspects of fraternity life and the Cabinet is doing its job of helping to 'build courageous leaders' and

'uniting men in enduring friendships.'

We should also be very proud and grateful to the graduate brothers who serve in key volunteer roles - Purple Legionnaires, BCA members and House Corporation members. Whether they needed to offer support to a weary cabinet over Zoom, continuously adjusted plans to operate a chapter house safely, or helped with the intricacies of a virtual Recruitment, these brothers have emerged as the modern day 'Purple Legion' that should make us all "mighty proud."

We remain committed to supporting our members as they work to adapt to the COVID-19 pandemic. Hopefully this will eventually abate but we must be persistent. In the words of brother Calvin Coolidge, "Nothing in the world can take the place of persistence. Persistence and determination alone are omnipotent. The slogan 'Press On' has solved and always will solve the problems of the human race."

While we may see changes in how Phi Gamma Delta operates today and into the future, our brotherhood is the basis of our work, and our friendships are more important than ever. Stay safe and 'Bear Down.'

Fraternally,  
Jeff Derickson '72, BCA President

# Study Room Renovation

The men of Upsilon Alpha strive to encourage and aid each brother in maintaining the highest scholarship of which he is capable. In pursuit of this Standard of Excellence the undergraduate brothers conceived a plan to transform the chapter study room to create an environment that rivals the University Library and The Eller School of Management. With the help of generous donations from graduate brothers, the Mother's Club and a grant from the IHQ Educational Foundation, it became a reality.

The study room is now a state-of-the-art facility with group study cubicles, plug-ins for laptop computers, video means to project powerpoint presentations, projection capability, a speaker system, white boards, and new office type furniture. The room is carpeted, has a Wi-Fi system supported by fiber optics, sound-deadening ceiling tiles, and LED lighting.

This project was possible because of tax-deductible donations to the Phi Gamma Delta Educational Foundation that are designated to the Upsilon Alpha Chapter House Endowment Fund (CHEF). The Upsilon Alpha CHEF was depleted after the outlays for the study room renovation project. Thanks to the generosity of a recent gift by Brother Deno Dikeou '61, the Upsilon Alpha CHEF funding has been restored and increased.

Special thanks and recognition are in order for Brother Trevor Henson '19, our Graduate Resident Advisor, and Alex Gray '22, the Chapter Historian and House Manager. These brothers spent many hours all summer planning, supervising and personally contributing their talent and labor to this chapter house enhancement project.

Their attention to detail and hard work has resulted in a facility that will enhance the academic achievement of our undergraduate brothers as we strive for academic excellence.

Please consider a tax-deductible donation to the Upsilon Alpha CHEF at the Phi Gamma Delta Educational Foundation (include contact/donation info provided by FMC) so we can continue to pursue projects like these in the future.

## H. Wilson "Unky" Sundt '54, continued

Outside of work, Unky was very influential within the local community. He served on the boards of Magma Copper, Schuff Steel, University of Arizona Foundation, Tucson Airport Authority and the Tucson Electric Power company. Sundt was awarded the Free Enterprise Award in 1989 by the Arizona Chamber of Commerce, by the University of Arizona with the 1982 Distinguished Citizen Award and the 1989 Medallion Award for those who demonstrate lifelong service to the community. During his time at the University, Unky was also a member of Bobcats. Unfortunately after a battle with cancer, Unky passed away at the age of 75 in 2008. He is survived by his college sweetheart, Dottie, three children and six grandchildren.

## Craig Barker '82, continued

Craig currently works at the University of Arizona Foundation as the Senior Vice President of Financial Services and the CFO. In his tenure working for the university, he has received multiple awards including an industry award for innovation in 2016. Outside of his professional career, Craig has volunteered on numerous committees and non-profits including the Arizona Sonora Desert Museum, the Council for Advancement and Support of Education (CASE), Tucson Medical Center, and the Rotary Club of Tucson. Craig says that his 4 years in Upsilon Alpha as an undergraduate were some of the happiest of his life. He believes that being a Fiji helped him transition from a high school student to being successful at such a large University. He is "mighty proud" to be a member of a Fraternity where he reveres many of the men who came before him and who continue to support the Chapter with their leadership. Craig has two sons, Jacob, a 2018 graduate from NAU who currently works at Raytheon, and Lukas, a 2018 graduate from the Eller College of Management.

## Jeff Mongan '83, continued

served as past Chair of the national Recreational Development Council. As of August 2020, Jeff has semi-retired but stays very involved with his local community. He was the Chair of the UrbanPlan Committee for ULI Arizona and UrbanPlan program volunteer at several Phoenix area high schools. Mongan also serves as a volunteer leader with McDowell Mountain Community Church in North Scottsdale. As an undergrad Jeff served as the Chapter Treasurer and won an award for best all-around intramural athlete. After graduating Mongan served on the Board of Chapter Advisors and currently is the President of the Upsilon Alpha Building Corporation. Jeff has very fond memories of his time as a Fiji, making some of his best life-long friendships that continue today. He says "the fraternity instilled positive values and principles that carried through to my career and family life. My career in real estate development came about from the network of exceptional FIJIs that were leaders in the commercial real estate business in Phoenix including one of my mentors, the late Lee Hanley '64." Jeff's two daughters, Jeannie and Maddie, are both members of TCU's Kappa Alpha Theta chapter.

## Andrew Braccia '98, continued

by PayPal), Etsy (public), Xero (public), and PagerDuty (public). Prior to joining Accel, Andrew spent close to a decade in a variety of executive positions at Yahoo!. Andrew and his wife, Kirsten, live in the San Francisco Bay area with their four children. They have generously donated major gifts to the University of Arizona to assist with the construction of the new academic center for UA student-athletes, material support for nursing students and their educational teams, and recently, to support COVID-19 initiatives.

## Congratulations to our Smith-Cheney Spirit Award Recipient

Due to the current pandemic, the annual Pig Dinner will not be held this year. The University of Arizona has banned the gathering of large groups on campus for at least this academic year. However, some traditions will still be honored

including the presentation of the Smith-Cheney Spirit Award.

Now in its second year, this award was created to honor an undergraduate brother who has exhibited special characteristics, exemplified by the late Steven L. Smith '72. Steve "T-Bear" Smith pledged Upsilon Alpha in the Fall of 1968 and immediately got involved in committees on campus, the local community and in the fraternity. His bright example of volunteerism was a source of inspiration for all. But maybe his biggest role was to be there for his brothers in the fraternity. He was a shining example of participating in anything he could to further the goals of Upsilon Alpha and help make the chapter worthy of the Cheney Cup, given to the most outstanding Fiji chapter in the nation. Fittingly, with the help of his motivated brothers, we won the Cheney Cup in his junior year. This was Upsilon Alpha's fifth Cheney Cup, which was the most in the nation at the time. And to top it all off, Steve was a distant relative of Orion H. Cheney, Nu Epsilon 1897, former Archon President and donor of the Cheney Cup, which has stimulated our chapters to 'Greater Efficiency!'

Steve passed 'Ad Astra' three years ago and his widow, Kathy Hawkes-Smith, wanted to establish an award in his name. We formed a committee of graduate brothers who knew him and have fabricated a 'Perpetual Plaque Award' that hangs on the wall in the Fiji house for all to see. Every year a deserving brother's name will be added to the plaque and a framed certificate will go to the recipient. You'll remember that the first winner was Jacob Crow.

Even though it cannot be presented at Homecoming as usual, we still wanted to award this honor to a deserving brother despite the restrictions of the current pandemic. He doesn't have to be "the most popular" or the "best scholar" or "best athlete," but rather, the brother that exemplifies the person who would gladly sacrifice "for the good of the Chapter." Just like Steve. We used to call this brother "Most Purple."

The Awards Committee, with advice from some of the key leaders in the chapter, considered all worthy candidates and selected the winner. The recipient of the 2020 Smith-Cheney Spirit Award is Alex Gray '22.

These are some comments made about him by his peers: "Alex's love for Phi Gamma Delta has been clear since our pledge semester. Alex always puts his brothers first. He has been an excellent Historian and actively worked to modify New Member Education and Recruitment during these trying times. He also serves as House Manager and worked diligently with Trevor Henson to assist with house improvements over the summer."

# THE BOBCATS SENIOR HONORARY

Established in February 1922, Bobcats have enjoyed a long and rich history being recognized as one of the first and finest organizations on campus. Fiji T.D. Romero '22, acting Student Body President, was one of its original members. Founded for the purpose of preserving the unity and welfare of the University of Arizona, each one of its 13 members has a strong connection to and pride for their school. Their motto is "Eternal Vigilance." Annually, Bobcats help organize Homecoming and the Evening of Excellence as well as other community service projects that aim to better the University of Arizona.

Members of Bobcat Senior Honorary are selected based on their scholastic achievement, leadership, university and community involvement and a sincere commitment to the University of Arizona. Historically a men's senior honorary, women were admitted starting in 1987, due to Title IX.

The Honorary Bobcat membership is an integral part of the Bobcat organization and are individuals selected by the Alumni Awards Committee for their excellent service, significant contributions, and for bringing honor or recognition to the University of Arizona.

To date Phi Gamma Delta has inducted 143 members to this prestigious group. No other organization on campus has more members of Bobcats than our Fraternity!

To see a list of Upsilon Alpha Bobcats, check out our website at [www.arizonafiji.org](http://www.arizonafiji.org).

Click on HOME and then FIJI BOBCATS.

"Alex is the perfect candidate because of his dedication to working for the chapter and ensuring that the chapter house was ready for us to move in to and run smoothly throughout the year. Also for his dedication to the Ritual and completion of Post Initiation Education."

"Alex has invested hundreds of hours into maintaining the house for the brothers, as well as guiding the new pledges to the best of his abilities during these times."

"For all the effort he's put into the house this past year, Alex Gray is a deserving recipient of this Award."

Congratulations, Alex!

# CHAPTER MEMBER & ALUMNI PROFILES

## Matt Hill '21

Matt Hill is from Davis, California and is a passionate golfer and U of A basketball fan. Matt is currently a senior studying finance and entrepreneurship in the Eller College of Management. After graduating this upcoming May, Matt hopes to pursue a career in management consulting. Matt has been with FIJI since his freshman year and is incredibly proud of how the chapter has grown. Matt has held multiple positions within the fraternity including planning and running Mom's Weekend and the annual Pig Dinner. Matt has also been involved with the social, academic, pledge education, and judicial committees. Matt fondly remembers his Junior year that he spent living in the house. He recalls, "Never a dull moment living with 45+ guys in the chapter house. It did not matter if I was working out, eating, doing homework, studying, or watching sports, it was always a good time because I was surrounded by all my brothers." Matt enjoys leading the chapter as a senior and is excited to continue to be involved with FIJI as a graduate brother after he graduates.

## Danny Kreamer '21

Danny is a Senior from Phoenix, AZ, and is majoring in Political Science. During his time at Fiji, Danny served as Intramural Chair, Recording Secretary, and is current the commissioner of the intra-fraternity 3v3 basketball league (FBA), which features 24 teams made up of brothers and pledges.

Throughout his time in college, Danny has taken an interest in political campaigns, interning for both gubernatorial candidate David Garcia in 2018, and for now senator-elect candidate Mark Kelly in 2020. As a

member of the finance team, Danny helped the Kelly campaign bring in one of the largest fundraising hauls in the history of senate campaigns.

Upon graduation in Spring of 2021, Danny plans to take a gap year, possibly getting a graduate degree, working, or doing something generally productive before going to law school. As a massive University of Arizona sports fan, Danny has been disappointed by the lack of success by the school's athletics in the past four years attending the university. Danny has gotten a lot out of his time in Fiji, saying, "Being in Fiji like this was not only the highlight of my time here at the University of Arizona, but will continue to benefit me after graduation. The relationships I have built and the memories I have created here are absolutely priceless."

## Wainwright Fishburn '75

Wainwright Fishburn, a third-generation Arizonan, was indoctrinated to UofA since birth. He worked in restaurants starting at the age of 15 and even helped open The Vineyard, now known as Dirtbags. Following graduation, Wain spent a fellowship year at the Australian National University and started his career as a management trainee reporting to the CEO, a FIJI. Now, Wainwright Fishburn, Jr. is partner and Global Head of Digital Health with Cooley LLP. Wain's practice emphasizes general representation of life science, technology and other operating companies that range from startup through IPO. As a recognized life science and digital health thought-leader, Wain is a frequent speaker at programs addressing industry issues, including at the International CES Digital Health Summit, USC's Body Computing Conference, Impact Forum and the Samsung: Health Tech Conference. Wain's best piece of advice comes from fellow FIJI, David Fleet, "Know Yourself + Be Yourself x Give of Yourself = Successful Life."

# Upsilon Alpha Building Corp. Update Building Excellence Campaign

2020 has been a year of challenges and opportunities for the Upsilon Alpha Building Corp. The Building Corp.'s mission is to provide safe, comfortable housing and study facilities for the undergraduate members of the chapter. At the beginning of the spring semester in January the chapter house was fully occupied. In early March, the Covid-19 pandemic became a national emergency while the undergraduate brothers were on spring break. The University transitioned to online classes and encouraged students to return home for the balance of the semester. We kept the chapter house open at very low occupancy but closed the kitchen/meals operation for the balance of the semester. This led to some short-term financial challenges that we were able to work through mainly due to the generosity of some graduate brothers who stepped up to support the Building Excellence capital campaign.

The Building Excellence campaign kicked off in 2019 as the undergraduates moved back into the chapter house. The goal of the campaign is to raise \$2.5 million to pay off the house mortgage, raise funds for current and future house renovation and systems replacement, endow a career coach to provide career counseling and raise scholarship funds. With the chapter house approaching 20 years old, various systems and equipment are reaching the end of their useful life. Prior to the pandemic we committed to a major overhaul of the HVAC system, replacement of exterior security cameras, the door lock/entry system and some other minor capital reserve projects. These necessary repairs required us to deplete our maintenance reserve and use capital campaign funds to complete the projects while the undergraduate brothers were on summer break. Stucco repairs and repainting of the house also took place during the summer.

We also incurred additional expenses necessary to comply with Covid-19 mitigation guidelines. The chapter house looks great and the undergraduate brothers were quite pleased with the improvements when they returned for the fall semester. Our Graduate Resident Advisor Trevor Henson '19 and chapter Historian/House Manager Alex Gray '22 worked exceptionally hard on all the projects implemented over the summer break.

We'd especially like to acknowledge the extraordinary generosity of Louis "Buzz" Sands '63. When Brother Sands learned of the financial challenges we were facing in the spring semester due to Covid-19 he offered to pay off the remaining mortgage balance on the house. This was on top of the leadership challenge gift he made to kick-off the Building Excellence campaign and the annual Sands Scholarships to encourage academic excellence at the chapter. As of May 2020, the chapter house mortgage is paid off! THANK YOU Brother Sands!

We would also like to thank several long time Building Corporation Board members for decades of service to Upsilon Alpha. John Marietti '61 will retire from the Board at the end of the year. Brent Moody

'61 passed Ad Astra in late January after many years serving on the Board. Vinson San Angelo '62, continues to serve as Board Treasurer and Finance/Housing Advisor on the Board of Chapter Advisors. These brothers inspire and remind us that Service is a core value of our fraternity and "Phi Gamma Delta is Not For College Days Alone". Thank you!

# Upsilon Alpha Kicks Off Virtual Career Network & Speaker Series

Upsilon Alpha has established a unique career network and speaker series to connect alumni, parents & undergraduates. The program provides career resources, a job board & mentor platform.

It will provide....

## Speaker Series

The program kicked off this past spring with a video series featuring exceptional presentations made by alumni and guests. Here's a review:

- David Scholl discussed his career in commercial real estate
- Jason Rowley examined careers in sports with undergraduates and discussed his career as the CEO of the Phoenix Suns

We hope to soon start hosting presentations bi-monthly to quarterly. Stay tuned for future presentations by checking out our calendar at <https://www.arizonafiji.org/>.

If you are willing to make a presentation yourself or with a few others, please email Matt Noble at [matt.noble@fmgucson.com](mailto:matt.noble@fmgucson.com).

## Career Network

Upsilon Alpha is committed to creating leadership and career development opportunities for all of our members. Alumni can network with each other and with undergraduates taking advantage of the network to gain access to career planning tips, leadership development information, job board, and the mentor-mentee platform. It's a unique program only offered by Fraternity Management Group to advance the career needs and possibilities of our members.

Alumni, parents and undergraduates are encouraged to participate in the Upsilon Alpha Career Network. Learn more at <https://www.arizonafiji.org/career> (password: upsilonalphacareers!).

Please contact Pete Parker at [pete.parker@fmgucson.com](mailto:pete.parker@fmgucson.com) if you are interested in any of the below:

- Enlisting as career mentor for other alumni, parents and/or undergraduates.
- Joining as a mentee to get advice from an alumni and/or parent.
- Post jobs to the job board.
